This is the first of a series of Open Forum Webinars to be held weekly through April 30, 2020

What to expect: This open forum is in response to Covid-19 and the impacts on families with children who have needs related to their behavioral health. We will cover the following topics:

- **How was your week?**
- **Things that have gone well?**
- **Things of current concern?**
- **What you still need to know?** (We will develop a list, but may not have immediate answers)
- **Come prepared to tell a funny story that has happened in the last week** (Depending on the size of the group, we may only be able to select a few)
